

Voting Methods Modeling Workshop

Annapolis, MD

Atlanta, GA

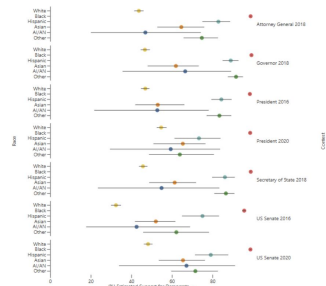

Georgia 2020

Ecological inference estimates by county for GA State.

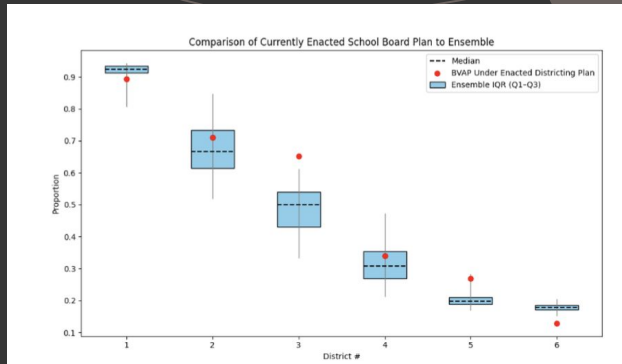

Ecological Inference Estimates

Choose a county:

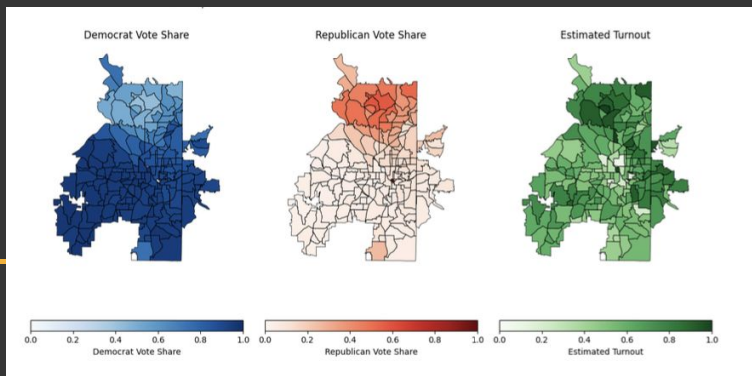

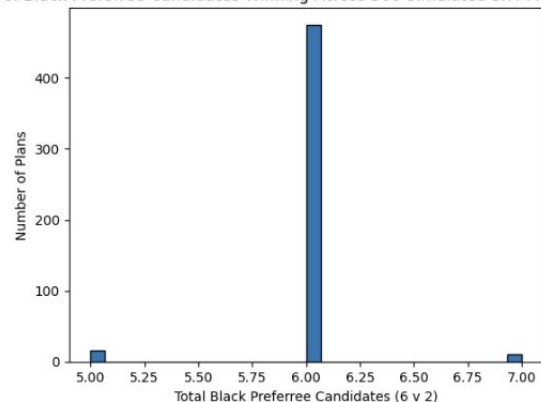

Fulton County

Each point indicates the estimated mean for that race or ethnicity's estimated support for the Democratic candidate. The extent of the bar indicates a 95% confidence interval.

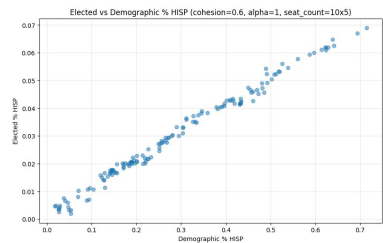

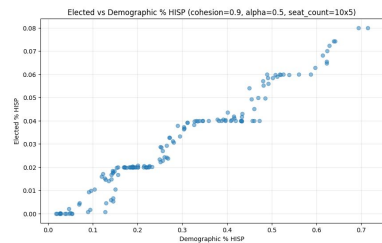

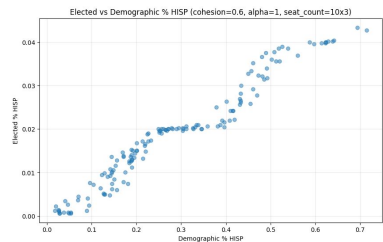

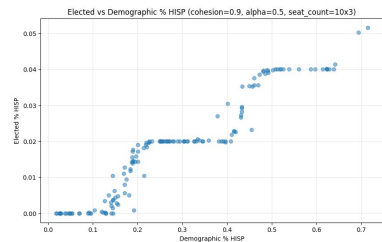

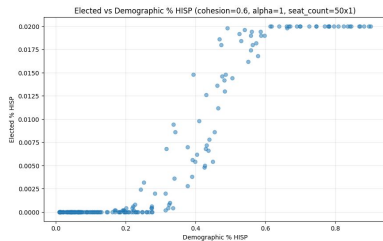

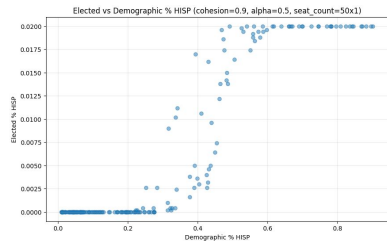

Distribution of Black Preferred Candidates Winning Across 500 Simulated 3x4 Multi-Member Districts

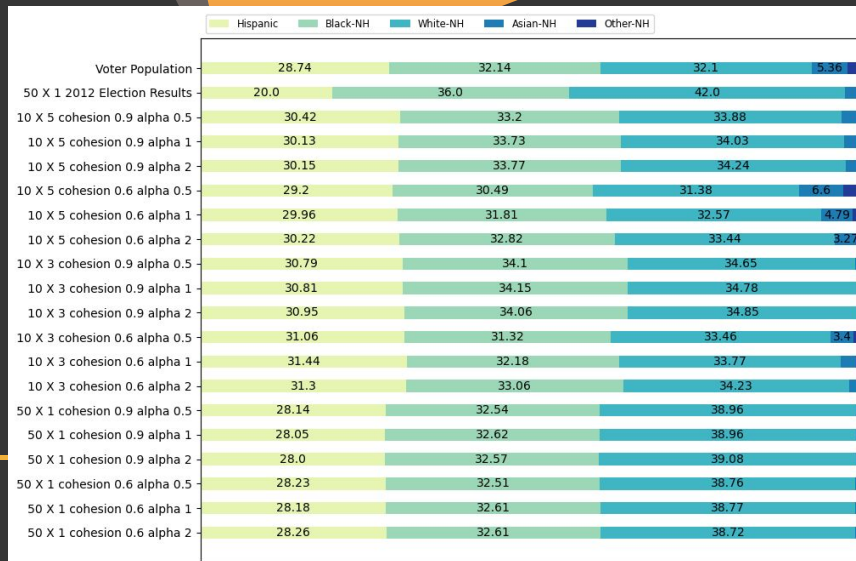

Chicago, IL

Elected Percent Hispanic vs Demographic Percent Hispanic

One dot = one district, average of 100 simulated district elections

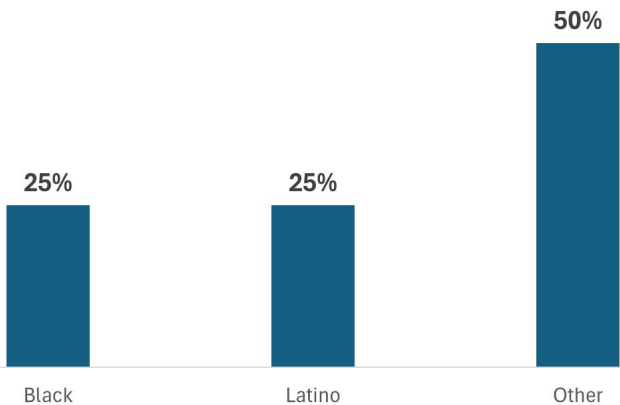

10x3 and 10x5 elections simulated via SVT with 1000 ballots, 50x1 election simulated plurality with 1000 ballots

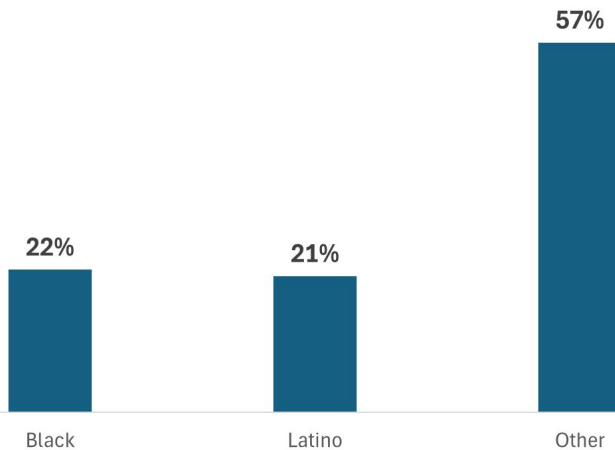

Dallas County, TX

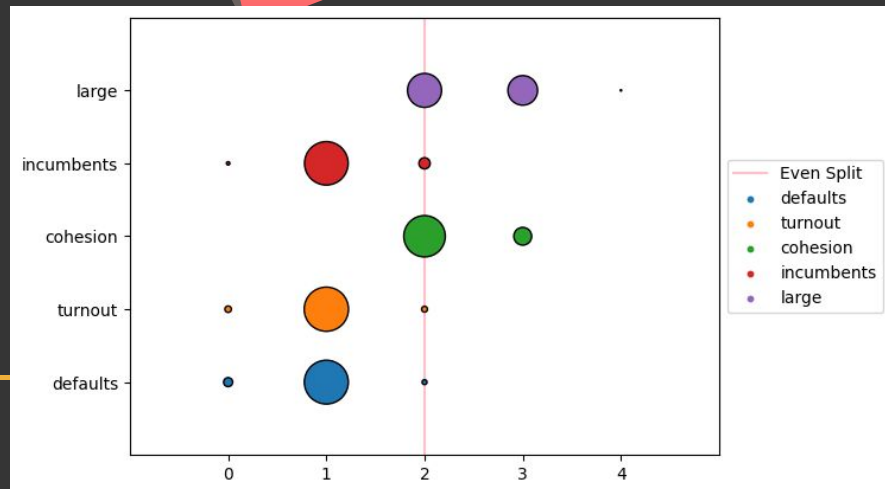

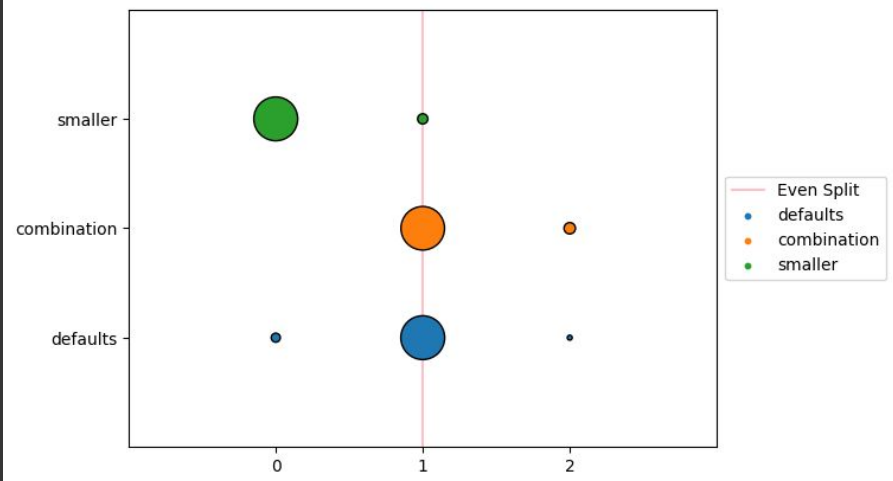

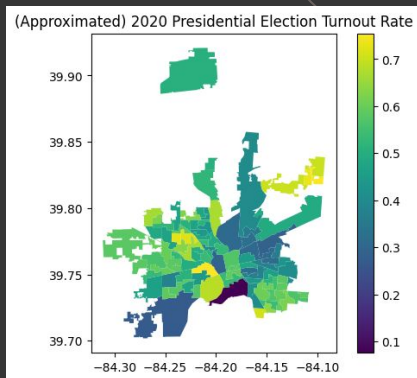

Status Quo: 4 Single Member Districts

STV

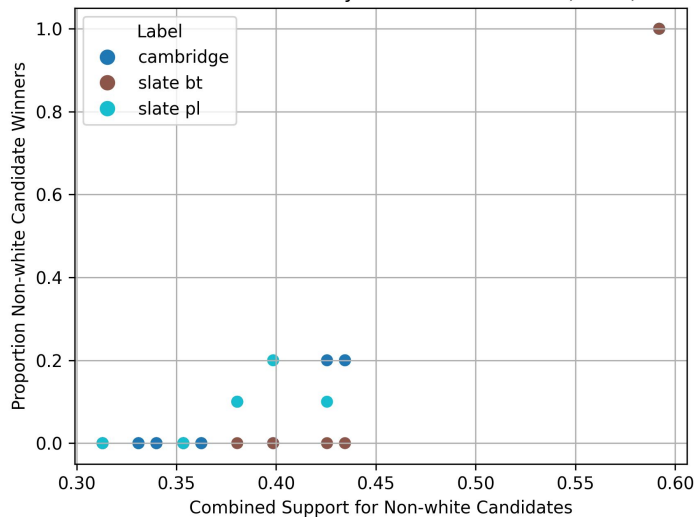

Dayton, OH

Denver, CO

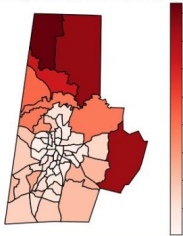

Simulated Denver City Council IRV Results (n=30)

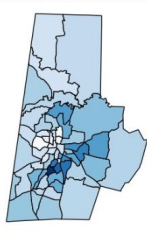

Durham County, NC

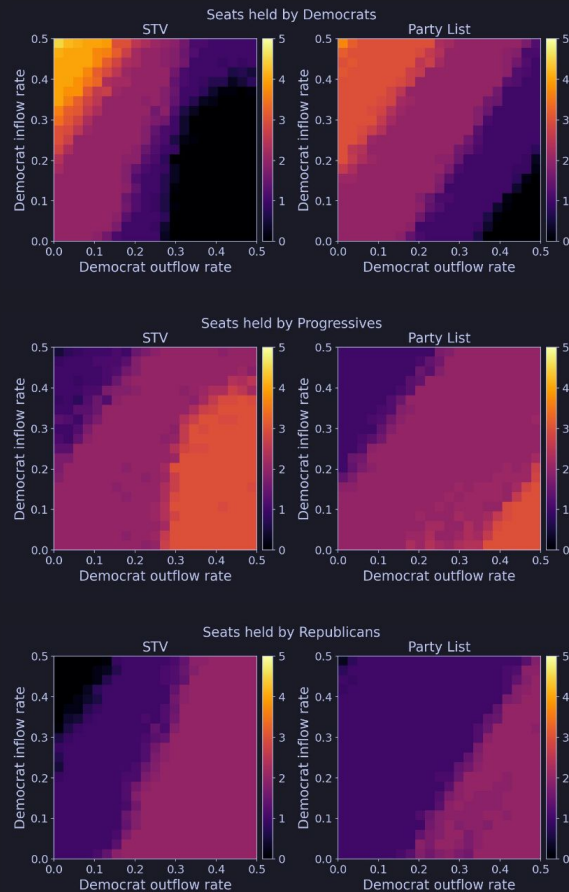

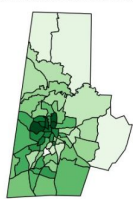

Republican Ratio for 2020 Presidential Primary

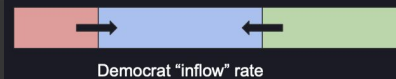

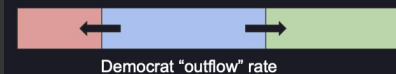

Democratic Ratio for 2020 Presidential Primary

Progressive Ratio for 2020 Presidential Primary

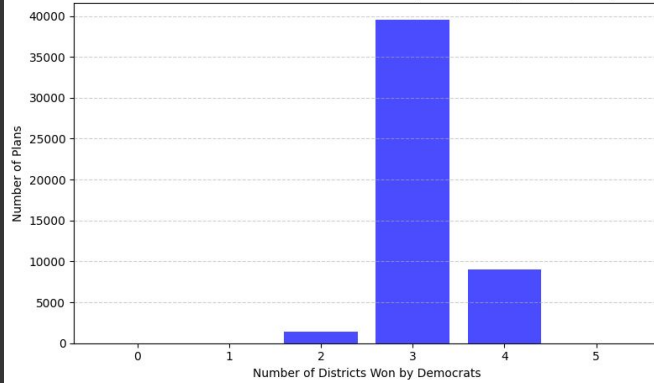

Party ID (est)

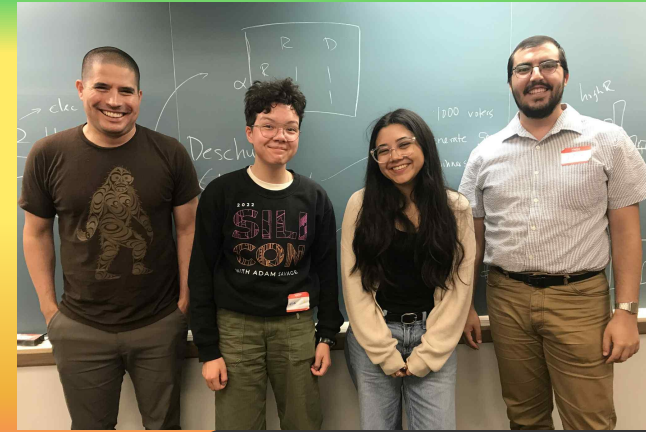

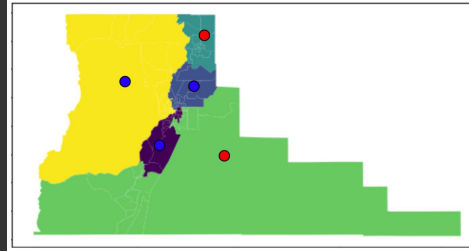

Deschutes County, OR

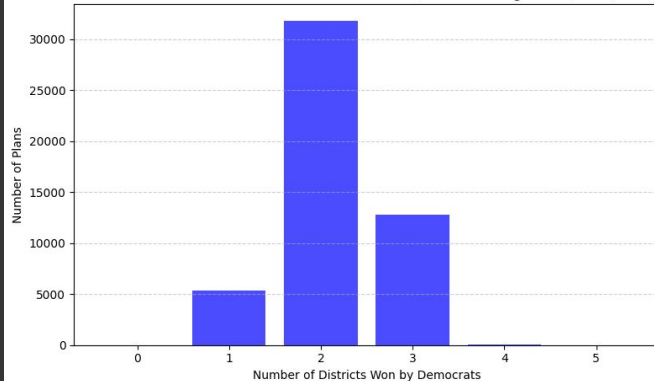

Distribution of Democratic Wins Across 50,000 Districting Plans (2020)

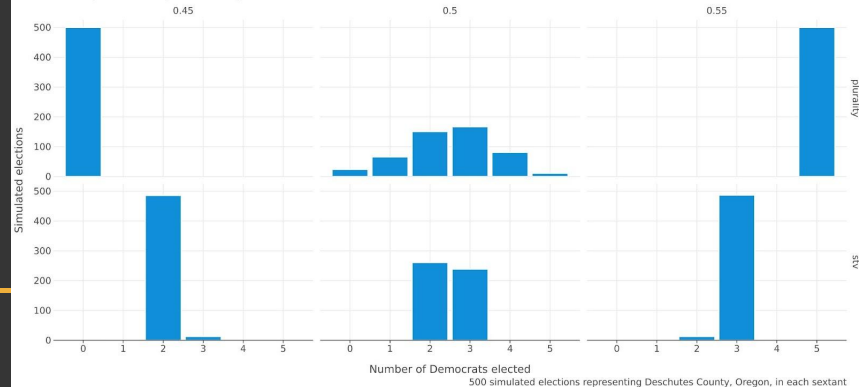

Example of a 3D-2R plan

Distribution of Democratic Wins Across 50,000 Districting Plans (2016)

STV returns more consistent partisan representation than plurality elections
Partisan majorities don't become blowouts,
and a split field always returns a split council

Hinds County, MS

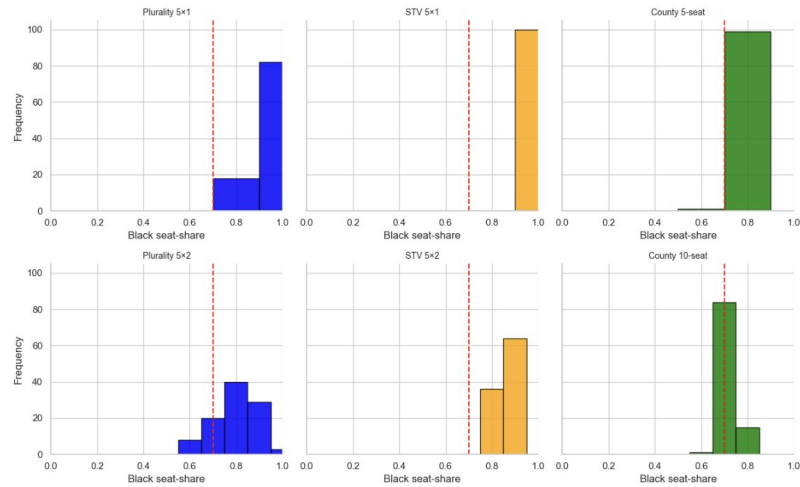

Figure 2: Distribution of share of Black-preferred supervisors elected across simulated elections, under current electoral system and five alternatives. The dashed red line shows the overall share of Black voters in Hinds county.

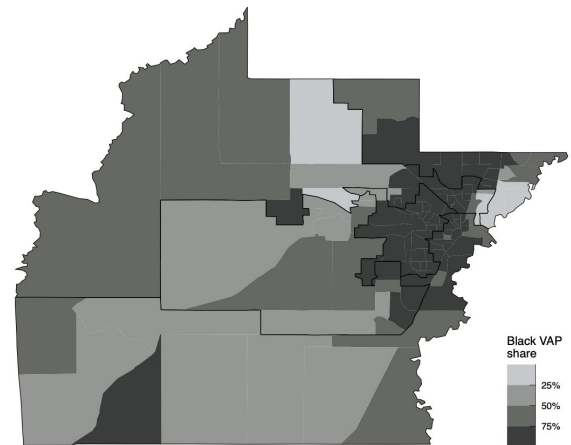

Figure 1: Distribution of Black voting-age population (VAP) in Hinds County.

Jefferson County, CO
